Re: In the Matter of the Formal Complaint of Laurel Capital Partners  
Against Delmarva Power Regarding the Application of the GSP  
Tariff Rate to a Solar Array on the Rate X Tariff – Docket No. 16-0105

Dear Hearing Examiner Lawrence:

In connection with the above referenced docket, Delmarva Power, Laurel Capital Partners and Tangent Energy have had discussions regarding the possible settlement of this matter. In that regard, the parties are requesting that you issue a temporary stay in this docket in order to give us the opportunity to finalize our discussions and hopefully come to a mutually acceptable resolution. I anticipate that we will need no more than forty-five (45) days to determine whether we can resolve this matter and execute any necessary documents to implement a settlement.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to contact me.

Respectfully submitted,

  
Pamela J. Scott
